March 22, 1950

To the State Board of Education :

I certify that the above is a correct statement of the financial proceedings of the district for the school year 1950-51, and that copies of this statement have been filed with the chairman of the board of selectmen and entered in the records of the school board in accordance with N. H. Revised Laws, Chapter 139, Section 19.

JOHN P. CARLETON,
Chairman of the School Board

March 22, 1950

ANNUAL REPORT OF BEDFORD SCHOOL BOARD

1950-1951

Possibly the most significant development this year has been the inauguration of a shuttle system by which pupils are transported from one school to another with the objective of eliminating, so far as practicable, multi-grade class rooms. At the beginning of the school year with the large increase in enrollment it became increasingly apparent that the problem presented by having as many as four grades in one room was acute.

The solution was to charter a Public Service Company bus which has gone from district to district picking up and dropping off pupils at the appropriate school buildings with the result that all of the first and second grade children now attend the Stevens Buswell School in three rooms, all of the second and third grades the Donald Street School in two rooms and the upper four grades the Peter Woodbury School in three rooms. This permitted the elimination of the ninth teacher which had been authorized at the last District Meeting and thus made available funds to defray the additional transportation costs.

This plan has apparently met with almost universal approval by the parents, teachers and pupils. The Board earnestly hopes that the plan can be continued because it is convinced that the result is a higher standard of education and better supervision and discipline. The Board does not believe that the system should be abandoned because increased enrollments next year may call for an additional teacher.

The hot lunch program continues to operate successfully due largely to the skillful management of the ladies who

have it in charge. Owing to a decrease in the amount of federal reimbursement it became necessary on January 1st, to increase the daily charge from twenty to twenty-two cents. This was done because the Board decided that the previous standard of the meals should be maintained. From the beginning of the school year until the present time an approximate average of 175 lunches have been served daily. The kitchen equipment although not wholly adequate is about as good as can be secured unless the District is willing to go to the expense of purchasing commercial restaurant equipment.

The Board is appreciative of the wholehearted cooperation it has received from Superintendent Hastings and from each and everyone of the teachers, all of whom we hope will return.

Of immediate concern to parents and prospective parents of children in the Bedford Schools should be the problem of future development. Since 1945 the enrollment has increased from 145 pupils to 216 (excluding a large number of children who attend parochial schools) and a substantial further increase is anticipated next fall. The time will come and in the not far distant future when it will be necessary either to build substantial additions to existing structures or to establish a consolidated central school. Plans should be laid well in advance because in either instance heavy expense will be involved.

Although at the last District Meeting an article in the warrant providing for a modest amount for such a survey was defeated, the School Board without expense to the District has independently undertaken such a survey which it hopes to have in the hands of the voters by the Annual Meeting if possible. This survey will not be as thorough as it would have been had the Board been able to secure outside expert advice but through the efforts of the Superintendent and volunteers the Board believes that this study, elementary though it may be, will point out the serious nature of the problem with which the District is soon to be faced. This

is a subject to which the Board urges each member of the District to devote serious thought.

Respectfully submitted,
BEDFORD SCHOOL BOARD

Chairman

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Bedford School Board:

I herewith submit my second annual report on the condition of your schools.

The outstanding development this past year has been the reassignment of pupils to the three schools so that all have the advantage of being in rooms with no more than two grades per teacher and the majority with a single grade per teacher. They also gain in many ways by being with children of approximately the same age.

The transportation schedule seems to have worked out very satisfactorily with no particular hardship added to any bus pupil. Parents, teachers and pupils alike seem very much pleased with the new plan and the result should be graduates from your schools better prepared in all phases of education.

The purchase of the new 16 mm sound projector should prove to be a means of providing educational experiences that could be provided in no other way. This type of educational aid is being used more and more every year in our public schools.

The time seems to be fast approaching when more serious thought should be given to meeting a housing problem that is creeping in upon the district. The district is very fortunate in having as its residents many people having had wide experience in school construction. Having talked with several of them, I know they are intensely interested in helping in any way they can to solve this problem of ours in the very near future. I should like to recommend that a committee made up of these laymen be appointed to work with the Board on this matter.

The effects of the present crisis in world affairs on the schools will be felt in shortages of certain supplies and possibly text books. The costs of these items will undoubtedly increase.

The biggest single effect can be expected in the form of a shortage of elementary teachers more critical than we have yet seen. Every school district should carefully consider the part that salaries play in keeping and obtaining able teachers.

The fine cooperation of the school board, teachers, and parents has made this year an enjoyable one. It is only through such cooperation that our schools can continue to improve.

Respectfully submitted,
HENRY J. HASTINGS
